MUTIARA LAUT

SPA MENU

Balinese massage (60 minutes)

Balinese massage is a full-body, deep-tissue, holistic treatment. Balinese massage uses a combination of gentle stretches, acupressure, reflexology, and aromatherapy to stimulate the flow of blood, oxygen and "qi" (energy) around your body, and bring a sense of well-being, calm and deep relaxation

Foot massage (30 minutes)

Leg and foot massage is an incomparable pleasure, which not only relieves fatigue, leaves leg muscles and the body in tone, but also is a unique relaxing procedure. Leg and foot massage stimulates not only the muscles, which are directly rubbed, but also gives a positive effect on the whole body. And the reason for this is a huge set of reflex points, which are responsible for the state of the body as a whole. Stimulation of this area of the foot can help alleviate pain in the back and bring a general easiness to the body

Head neck shoulder massage (30 minutes)

This is a relaxing massage therapy concentrating on the back, neck and shoulder muscles. The treatment is designed to relax and ease tension in the areas of the body where muscle problems most often occur.

During the massage, acupressure is applied up both sides of the spine and along the lower back, moving up towards the shoulders and neck

Manicure pedicure (60 minutes)

Relax and be pampered with a pedicure whilst you sit back and enjoy the sea breeze. The sceneries features remarkable ocean views during the treatment and pleasing atmosphere ensure all of your senses are tended to. Your 30 minute pedicure includes having your feet soaked in warm water, then scrubbed, buffed and filed, and a foot cream applied.

Natural Sea salt and lemon foot therapy (30 min)

With the Natural scrub of natural salt from Bali, gently scrub the feet and cleanse the skin. Relaxed with foot massage. The lemon therapy then brings back the vitamin directly to your skin and rehydrated the feet skin.

Package

Balinese massage (60 minutes) + Foot Massage (30 minutes) + manicure pedicure (60 minutes)

M/S/Y MUTIARA LAUT Raja Ampat Voyage

The Raja Ampat Voyage

The so called 'bird's head' of Irian Jaya or recently renamed to West Papua, is the starting point of our sailing cruise to the islands of the four kings; 'Raja Ampat'. Its secrets of nature can be discovered; hundreds of lush green limestone islands with turquoise blue lagoons and hidden beaches, sacred caves and the exploration of rare bird species. Explore the pristine reefs by snorkeling or scuba diving. The visitation of a pearl farm will explain us firsthand the cultivation and harvesting of the 'pearl of the sea', which is also the meaning of the Mutiara Laut.

The Mutiara Laut is the ideal platform for your private charter to explore the ancient and mystical area of Raja Ampat. Due to the relatively long passage and endless possibilities for activities between the islands, we recommend a minimum of 10-14 days or more for your voyage. With the Mutiara Laut each day typically includes swimming, snorkeling, scuba diving, waterskiing, fishing and beach-combing with BBQ parties.

Note that this is a sample itinerary. We create all our voyages tailored to our client's needs and preferences. The possibilities are endless.

We will set sail again and cruise all night toward the Misool Archipelago in the south of Raja Ampat.

Day 1, Sorong

After arriving at Sorong airport it's just a short drive to the harbor where we will embark the Mutiara Laut. As soon as we are onboard and the harbor clearance is done, we are ready to set sail towards the island of Wai, which is close to the mainland.

Day 4, Jefam

A day to experience the wonders of the underwater world. Just drift with the current and see the fields of anemones, giant clams and schooling fish. With the tide coming in, we will go for one more time to the hidden lagoons and beaches to admire the sunset.

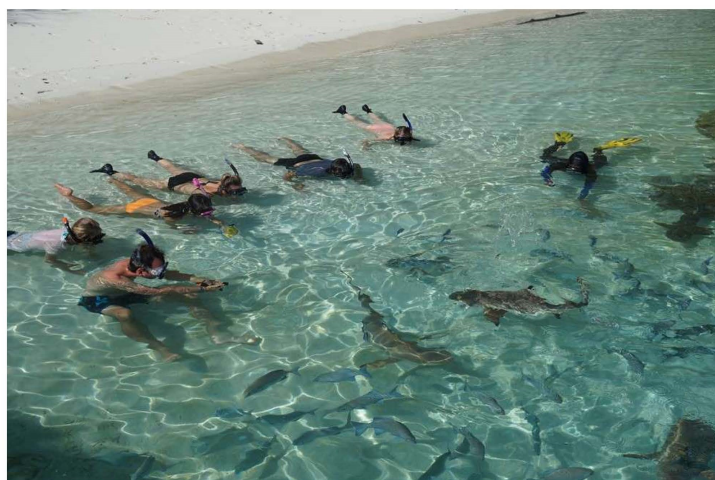

Day 5-8, Misool

The north of Misool is dotted with countless uninhabited islands fringed by white-sand beaches and coral reefs. Spend the morning snorkeling, scuba diving or exploring the islands. Few areas in Indonesia can claim to have such unsurpassed natural beauty

Day 2, Wai

Here we will enjoy our first experience of surroundings of white-sand beaches, clear waters and iridescent reefs with the backdrop of thick forest. At dawn we will continue our journey towards Waigeo.

Day 3, Waigeo

Coming on the deck in the early morning is like being in a concert hall of birds; the rare hornbill and the cockatoos are just some of the artists. Kabui Bay

as the eastern end of the Misool Archipelago.

The karst formation have cut the chain of islands into hundreds of coves and lagoons, high cliffs and limestone

overhangs, narrow channels and inlets, caves and jagged rocks.

The most famous and generally the most visited one is Tomolol Cave in the Island of Misool; this sacred site (it has a Muslim shrine at the entrance) has a whole river-sized waterway flowing through it which can be ridden on a rubber-boat. The countless shaded

beaches will provide an excellent location for BBQ's.

The days will be filled with the wonders of nature. We will be swimming, snorkeling, hiking and relaxing at the beach. In the evening we will be star gazing the countless stars in the Milky Way.

During one of our days here we will also pay a visit to the Misool Eco lodge. Not a single tree has been cut to build this little paradise; the whole resort has been built with drift-wood!

Day 9, Mansuar

Today with the outgoing tide, we have another chance to swim and play with the giant Mantas.

Drift with them in the plankton rich water while they feed or marvel them at the cleaning station in shallow waters. After lunch we slowly sail back through the Dampier-strait direction of Sorong. Keep your eyes and ears open since we spot frequently many different kinds of whales here, including Orca's!

Day 10, Sorong

All good things come to an end and so does our remarkable journey. After breakfast and reminiscent of the past days we will escort you back to the airport and hope to invite you for another yet unique voyage.

M/S/Y MUTIARA LAUT SPECIFICATION
